# CHV Business District Dialogue

## February Edition

### Development Updates

**The Factory** - Construction continues indoors. The primary focus has been getting plumbing and electricity throughout the building and installing lower level floors. Anticipated opening is in Spring.

**Town Square** - Bids have been received, and we anticipate awarding the construction project soon. We expect work to begin in Spring.

**Preservation Park** - At this time, the dumpster enclosure and small shed are mostly complete. Final painting and attachments will take place once the weather warms up. The pavilion will be built in late winter/early spring. Final landscaping is anticipated in April/May.

**Parking Lot at 50527 Cherry Hill** - Construction for the 50527 Cherry Hill Parking Lot, weather pending, will begin in March and should run to mid-May. Anglin Construction will be expanding the existing public lot off Independence St. and incorporating sidewalks to connect to the adjacent pathways. The Cherry Hill frontage will remain open for future development. You can learn more about all of these projects [here](#).

### What's New

Attention Artists! Are you an artist in the special needs community looking to sell your artwork directly to the public, but don't know where to begin? **Mod Market** is currently accepting applications for there Artists Workshop series! See the attached flyer for more information and how to apply!

**The Village Doctor** is accepting new patients! Dr. Grimm is now a direct primary care practice (DPC) and does not participate with any insurance companies. Rather than billing you or your insurance for each visit there is a set monthly fee for patients to be members of the practice. The fee will give you access to Dr. Grimm for all of the scheduled visits that you need to help meet your healthcare goals. You will have free access to classes that the practice develops. You will also have access to Dr Grimm and his staff during working hours and an online portal and after hours phone access for urgent issues or emergencies.

**The Village Grocery** will be running a Customer Appreciation Promotion! On Saturdays and Sundays between 11am-5pm stop in for a Free Slice of Pizza! Kids must be accompanied by an adult and limit 1 slice per person. Promotion starts on February 8th!

**The House of Colour CHV is open!** At House of Colour, we are celebrators of individuality and curators of confidence! It is our mission to help or clients build a lasting easy to manage, sustainable wardrobe that not only looks great and provides confidence, but also represents each client's authentic self. Book your Color & Style Analysis Today!

**Wild Wolf Coffee**, roasted right here in Cherry Hill Village is now available for purchase at The Village Grocery! Grab your bag of freshly roasted beans today!

AND REVAMPED  
THREADS!**

*Pre-registration required!*

**Are you an artist in the special needs community looking to sell your artwork directly to the public, but don't know where to begin?**

**APPLY TO OUR ARTIST WORKSHOP SERIES!**

We are going to empower artists with disabilities through 6 guided monthly workshops and 3 one on one consultations. We are looking to support up to 8 artists who are ready to take their business to the next level. Workshops will guide artists through marketing, customer service, designing an appealing visual set up, planning inventory, accepting payments and more. The workshops will be taught by experienced art and business mentors. This program will culminate in a full-fledged art market at the Village Arts Factory in Canton where each participant will host their own booth and sell their artwork, employing all of the skills taught during the program.

Workshops will begin in March and the art market will be hosted in October.

Thanks to the generous grant support from the Partnership for the Arts & Humanities, this program is offered free of charge.

Please send an email of interest to Amy at [modmarket@llecmi.org](mailto:modmarket@llecmi.org) and to receive an application.
