CHV Business District Dialogue

May Edition

Preservation Park

The Preservation Park project is expected to be completed within the next few weeks. The pavilion and concrete work are finished, and crews are currently working on electrical components. Landscaping will begin soon, bringing more green space and a softer park feel than before. Final steps include pathways and parking lot improvements. The new landscaping will be allowed time to settle, and the Farmers Market is scheduled to return in July.

Factory Building

Construction continues, with ongoing utility coordination. DTE is installing a new transformer and the building is also awaiting a gas connection.

VAF Parking Lot Improvements (Factory Plaza)

Plans include widening the Cherry Hill east driveway and adding accessible parking spaces near the Factory. The Township anticipates putting this project out for bid soon.

Town Square at Cherry Hill

Bids have been received and are currently under review. A contractor recommendation is expected to go before the Board in the coming weeks.
