

## Village News and Notes

### WEBSITE

✓ For those having trouble with the updated website, all should be corrected! Apparently, a spam filter was the culprit in creating accounts. Sorry for the inconvenience!! Give it another try and please let us know if you have any issues or want to see anything specific so everyone has easy access to information. Thank you! Try it today! [mychv.com](http://mychv.com)

### PRIORITY WASTE TRANSITION - BINS

✓ New waste bin delivery has begun! Homes and some condos get the biggies (95-gallon). One-car garage condos (6 buildings) get the small bins (65-gallon).

That being said...the delivery was alllllll messed up for the small bins. We thought we coordinated a good solution with Canton for a smooth delivery. Unfortunately, that didn't happen. The wrong bins were delivered and will be picked up Wednesday July 24. That's why you see them moved to the curb.

Sorry for any confusion. I drove around today and moved what was out, (yes, even if they had trash) to the front of the condos for easy pickup. If you have one in your garage, please try to move it to the front curb for pickup on Wednesday.

New 65-gal bins will be delivered sometime near August 12th. Until then, please use your current method of trash disposal in your alley. We have been assured 🙌 waste will be picked up till you get your new bin in a few weeks. Municipal Services does have their hands full but they didn't help themselves doing things twice. 😊😊 Thank you for your patience!

### WASTE PICKUP DATE

✓ One more tidbit on waste! Don't forget, all trash needs to be in your new bin. No more extra cans or loose bags. Bags go in the bin. This is all effective on July 29th. That means you won't use your new bins until the August 2nd pickup.

### PROPERTY SALE UPDATE

✓ The Board of Directors is getting closer to proceeding with the sale of the empty lots on Filmore and behind Roosevelt. We are currently finalizing the paperwork for registering the condo amendment and property replat with Wayne County. Things should pick up a little more steam after that. Stay tuned for more!

### TOWN SQUARE PROJECT

✓ Be sure to take a look at the plans for upcoming changes in Cherry Hill Village! The new Town Square Project will launch construction in August! Phase I includes some new parking near Indigo off Cherry Hill Rd. Along with walking paths off the ponds along Ridge Road, the Farmer's Market area will be getting a new structure and the parking will be reworked. Keep up to date by following this link:
